

## Nerve Slavery

It is present-day conditions—heaping burdens of work upon the nervous system that tells the story—premature breaking up of health.

It tells why so many men and women, who so far as age is concerned, should be in the prime of health, find themselves letting go of the strength, the power, the vitality they once possessed. It is because that great motor power of the body, nerve force, is impaired. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

Throbbing, palpitating heart.  
Sleepless nights.  
Sudden startings.  
Morning languor.  
Brain fog.  
Inability to work or think.  
Exhaustion on exertion.  
Flicking appetite.  
Digestion slow.  
Food heavy.  
Easily excited, nervous, irritable.  
Strength fails.  
Loss of flesh and muscular power.  
Bleeding melancholia.

The above is the genuine package of Dr. A. W. Chase's Nerve Pills, are sold by dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y.

## AN IRON-CLAD DUN

Germany At Last Loses Patience With Recalcitrant Venezuela.

### CRUISERS GOIN A HURRY

Significant Movement of German Cruisers Is Made Toward the Port of La Guayra.

Enforcement of Long Standing Claim Is About to Be Made, It Is Thought.

St. Thomas, D. W. I., June 11.—The German cruiser Falke sailed for La Guayra, Venezuela, Monday, and the German cruiser Gazelle sailed for the same port yesterday, under hurried orders from Berlin.

Washington, June 11.—In the absence of any official advice on the subject the officials here are in the dark as to the reasons for the hurried departure of German warships for Venezuela, as reported in the St. Thomas dispatch.

Germany has a big claim against Venezuela—that of the Berlin Company of Discount for the non-performance of engagements which the Venezuelan government has undertaken in connection with the great Venezuelan railway built by the government. The claim approximates 5,000,000 bolivars. One inference, and it is merely that, as there is no official information on which to base the statement, is that Germany has sent her vessels to La Guayra to enforce the payment of the claim, as Venezuela has not attempted to meet the obligation.

The diplomatic correspondence of the state department shows that Germany has considered the question of coercion in connection with the payment of the claim. A communication from the German embassy of Dec. 29 last has this to say on the subject: "In case the German government should be obliged to use coercion against Venezuela in connection with the pending claims it will have to be considered what kind of measures should be adopted. The most important measure of coercion—that is, the blockade of Venezuelan harbors—would have to be carried through without a declaration of war preceding it. A blockade, therefore, would be a peace blockade. Such a blockade would touch likewise the ships of neutral powers, inasmuch as such ships, although a confiscation of them would not have to be considered, would have to be turned away and prohibited until the blockade should be raised. In the same manner European states have proceeded on such occasions, especially England and France."

It is not believed that the United States government would raise any objection should Germany undertake the blockade of Venezuelan ports to collect the claims of the Berlin company, as the president in his last message to congress made the following observation in connection with the attitude of the American government on the Monroe doctrine: "We do not guarantee any state against punishment if it misconducts itself, provided that punishment does not take the form of the acquisition of territory by any non-American power."

### JONES REPULSED

Arkansas Senator Meets His Rival Roundly Cheered.

Little Rock, Ark., June 11.—The feature of the Democratic state convention yesterday afternoon was the ovation to former Governor James P. Clarke, who was declared by the convention to be the Democratic nominee for United States senator to succeed James R. Jones. Some of the friends of Senator Jones opposed the resolution, and it was stated that Senator Jones demurred to the jurisdiction of the convention. The resolution was adopted by a vote of 420 to 72, and formal declaration was then given, on the basis of the vote in the Democratic primary elections of March 29 last, making Clarke nominee for senator. Governor Clarke then addressed the convention and was accorded perhaps the greatest ovation in the political history of Arkansas. Governor Jefferson Davis was unanimously renominated.

### Friends At Last.

Pretoria, June 11.—Boer commandoes arriving here bring reports of fresh instances of fraternization between the Boers and the British troops. The surrender of a commando at Balmoral, Transvaal, was followed by a big "sing song." The British soldiers stationed at the blockhouses between Balmoral and Pretoria in some instances held up the trains and proffered coffee and tobacco to their late enemies. The Boers generally hold unfavorable estimates of their foreign allies except the Americans, whom they declare to be crafty and great fighters. A prominent commandant said: "All the Germans are fit for is to give horses sore backs."

### The Third Trial.

Eldorado, Kan., June 11.—The third trial of Jessie Morrison, who killed Mrs. Olin Castle at the latter's home here in June, 1900, by cutting her throat with a razor, began here yesterday. Judge Aikman refused a change of venue.

### SAVED THE FISH

How a Wealthy Indianapolis Proserved Tippet canoe Bass.

Indianapolis, June 11.—A. A. McKain, one of the wealthy men of Indianapolis, related a good story today of how he prevented selling and spearing of fish in the Tippecanoe river near Monticello. He went there to camp a few summers ago for a sport vacation. He is an ardent fisherman and as the Tippecanoe is good fishing ground, he was prepared to enjoy himself to the limit. But about the time he was getting real interested a party of seiners came along and destroyed the sport. They also destroyed the fishing for others. This was more than McKain could stand. He is not only wealthy but determined as well, so he bought in all eighteen farms extending for four miles on both sides of the river. Not only has he done this, but he has interested other land-owners in looking after fish. At a large expense he has succeeded in protecting a portion of the fishy tribe, but there are no more seining parties in the vicinity of his property. His first fishing tour to the Tippecanoe, however, has turned out profitably, as he says he has improved his many farms until they have become good money makers. It is doubtful if any other man in Indiana has gone to as much trouble or expense in protecting fish.

The race for the Republican nomination for joint senator in Marion and Morgan counties has taken a new phase that in a way involves the friends of Senators Fairbanks and Beveridge. The Fairbanks men naturally have looked for a candidate who would be friendly to them if nominated. They have no trouble, as every Republican here is for Senator Fairbanks for re-election. The state senators elected this year will be holdovers which will give them a vote in 1905, when Senator Beveridge's successor will be named, so the Beveridge men are just as vitally interested as the Fairbanks workers, and perhaps more so, as there is a prospect that there will be other Republican candidates besides Beveridge. The two leading candidates for the nomination for senator here are Charles Martindale and Linton A. Cox. Fairbanks is friendly to both and both men are for him. Cox is for both Fairbanks and Beveridge, but Martindale says he is for Fairbanks, but will make no pledges as to Beveridge. The result is that the Beveridge organization here is taking an active hand in the fight, which is the most interesting the Republicans have had locally for some time.

Auditor of State W. H. Hart made use of some interesting figures and comparisons in a speech of welcome to the International Brotherhood of Bookbinders of North America, which is now meeting in the hall of the house of representatives at the statehouse. He finds there are 854 organizations of union labor in Indiana with a total membership of 80,000. He also says there is a public sentiment that will sustain the cause of the union men, so long as conservatism and justice continue and a policy of right and fairness be pursued that does not cross the deadline of oppression or wrong. He contrasts the condition of the laboring men of Indiana with those of Pennsylvania, where a serfdom exists among the striking anthracite miners. Hart's figures show that the anthracite operators are clearing up \$60,000,000 a year and that if the demands of the strikers should be granted they would still make \$56,000,000 annually.

The Saturday half-holiday movement may be given a legal status by the next session of the Indiana legislature, as it is the understanding that the Indiana State Bankers' association will urge that a bill be passed legalizing the close of banks Saturday noon. During the last three years the number of business houses closing at noon Saturday has greatly increased. The organization of the clerks is partially responsible, but many firms say there is wisdom in it and that they suffer no loss, as the employees as a rule make amends for the favor of half a day off from the irksome routine. With the backing of the State Bankers' association the clerks' organization and many prominent business men, it is predicted that a half-holiday bill will become a law.

### Revealed the Fraud.

Mexico City, June 11.—Conclusive proof of fraud against a New York life insurance company perpetrated five years ago has resulted from the exhumation in the Spanish cemetery and the resurrection of a stuffed figure filled with bricks and bars of lead. The deceased, presumably Bernardo Sotomera, was insured in favor of his brother, but who is now a prisoner in this city.

### A Double Tragedy.

Falmouth, Ind., June 11.—As the result of an old feud Oliver Cameron, a wealthy retired farmer, was shot at the door of his home here last evening and mortally wounded by John Bailey, the village barber. With his last remaining strength Cameron shot Bailey who fell dead at his feet just as Cameron expired from the result of his wound.

### John Diehl's Case.

Newcastle, Ind., June 11.—The trial of John Diehl, charged with causing the death of Mary Farwig at Muncie is to come up for hearing here next Monday. The attorneys for the defendant are resorting to every possible point of law to gain time, but it is doubtful if the case is put off until fall.

### Shot His Father.

Princeton, Mo., June 11.—Daniel Poester, a wealthy farmer, was shot and fatally wounded here yesterday by his 18-year-old son in a dispute as to which would use the baggy.

## LOOKING INTO IT

Chicago Fire Horror Said to Have Been Due to Negligence.

### CORONER'S JURY TO SAY

Had City Officials Performed Duty Loss of Life Would Not Have Occurred 'Tis Said.

Managers of the Sanatorium Are Also Charged With Culpable Negligence.

Chicago, June 11.—Investigation of the cause and responsibility for the catastrophe at the sanatorium of the St. Luke society reveals, it is declared, a tale of negligence on the part of the officials of the sanatorium and the city.

Out of the mass of conflicting statements concerning the disaster one fact stands prominently forth. Had the city officials performed their duty the frightful loss of life would have been prevented.

This is admitted by the officials themselves, who endeavored, however, to shield themselves by shifting the responsibility upon some department with which they are not connected. The health department, the office of the building commissioner, and the boiler inspector are involved in the charges of criminal carelessness, and it only remains for the coroner's jury to fix the blame.

As for the officers of the St. Luke's society, they will be compelled to show by what right they operated a sanatorium without a license and explain the locking of delirium tremens patients in rooms on the top floor and shackling them.

At the instance of the coroner's office the president of the St. Luke society and several employees who were arrested Monday night will be detained to await the action of the coroner's jury. Dr. Miller, president of the sanatorium, last night petitioned Judge Chetlain of the superior court to grant him his liberty on a writ of habeas corpus and the writ was issued returnable today. Miller claims that the death of the persons in the fire "was not the result of any negligence or carelessness on his part, either as an individual or an officer of the institution, but, on the contrary, he used every human effort to save the lives of the patients."

### NO CHANGE

Strike Situation in the Mines Remains About the Same.

Wilkesbarre, Pa., June 11.—National President Mitchell of the Mine Workers' union, who went to New York Monday to meet Carroll D. Wright, United States commissioner of labor, did not return to strike headquarters here until nearly midnight last night. In his absence nothing was given out regarding the anthracite strike in this state or the soft coal suspension in Virginia and West Virginia. There is no change in the situation in this region from either the viewpoint of the miner or the operator. There was stone-throwing and firing of revolvers yesterday by a crowd which congregated in the vicinity of the William A. Colliery of the Lehigh Valley company at Duryea. The crowd dispersed, however, before anyone was injured. Several persons, among them three women, were arrested and put under peace bonds.

### The New River District.

Thurmond, W. Va., June 11.—The strikers have succeeded in tying up almost every operation in the New river district. Not 100 miners out of 6,000 are at work on Loup creek, and not a single car of coal was sent down that branch yesterday. All the Chesapeake & Ohio shifting crews in this field have been laid off and business is at a standstill. The fires are out in the thousands of coke ovens that have heretofore illuminated the narrow New river valley, and from all indications the situation will not be soon improved.

### Getting at Bottom Facts.

New York, June 11.—The information called for by President Roosevelt about the coal strike has been secured and will soon be presented to him in the form of an official report by Carroll D. Wright, United States Commissioner of labor. The report will touch at the root of the difficulty and will explain the "real causes" leading to the great industrial conflict, which causes have been jealously guarded by both sides. Mr. Wright will not make any suggestions or recommendations.

### Civic Federation Out.

New York, June 11.—Ralph Easley, secretary of the National Civic Federation, on being asked as to the progress of the anthracite coal strike, replied: "We have nothing further to do with the matter, although we are spoken of in connection with it. Since our overtures were rejected we have withdrawn from all participation, and the matter is now in the hands of Carroll D. Wright."

### Shot His Father.

Princeton, Mo., June 11.—Daniel Poester, a wealthy farmer, was shot and fatally wounded here yesterday by his 18-year-old son in a dispute as to which would use the baggy.

### SAME OLD ROW

Elkin and Quay Controversy Is Again to the Fore.

Harrisburg, Pa., June 11.—Bitterness between the leaders of the Pennypacker and Elkin factions cropped out several times during a meeting of the Republican state committee yesterday afternoon to prepare the roll of delegates and select the temporary officers of today's state convention. Senator Quay, the leader of the Pennypacker forces, and Attorney General Elkin, who was in personal command of his adherents, shook their fingers in each other's faces and threatened political reprisals if each were not given fair treatment in the disposition of the contested seats in the convention. State Chairman Reeder accused Senator Quay of making a deliberate misstatement and the senator instantly replied that this was an insult which he resented. The Pennypacker forces had a decisive majority in the committee, and United States Senator Penrose was named for temporary chairman.

### Indiana Loses Swain.

Philadelphia, June 11.—The fund of \$400,000 which was required by Swarthmore college to secure the services of Prof. Joseph Swain of the Indiana university as president, was completed yesterday. Prof. Swain signified his willingness to accept the presidency of the institution providing a fund of \$400,000 was donated for the purpose of broadening the educational facilities of the college. The amount raised lacked \$15,000 of the required sum, and a meeting of graduates and alumni was held yesterday at which the deficit was pledged.

### Storm Kills Fifteen.

White Earth, Minn., June 11.—Fifteen are reported killed in a hail, wind and rain storm which passed over the southwestern portion of the White Earth Indian reservation. Reports from the southern part of the reservation say that the fury of the storm was terrific in Walworth and Atlantic townships, where many houses and barns were torn down.

### He Plea's Guilty.

St. Louis, Mo., June 11.—By agreement of counsel, William Strothers, the negro Turkish bath attendant who was arrested last January for the murder of A. Deane Cooper, the millionaire proprietor, pleaded guilty yesterday and will serve fifteen years in the Missouri state penitentiary. Formal sentence will be pronounced later.

## STATE NEWS NOTES

Incidents and Accidents and Doings of Note Throughout Hoosierdom.

### BILKING UNCLE SAM

That Is the Charge Brought Against Certain Indiana Wholesale Liquor Dealers.

It Is Charged That They Raised the Date of Inspection of Their Wares.

Evansville, Ind., June 11.—Investigation by John Chewing, traveling revenue collector, made during the past few days seem to indicate that it has been a prevailing custom among some wholesale liquor dealers to raise the date of inspection of barrels of whisky sold by them, thus increasing the value of the whisky by an apparent increase in its age. The discovery has been reported to the revenue department of the government, and orders have been issued for a number of seizures. The raising of the dates is not a violation of the revenue laws, but of the United States statutes, and the fine fixed for raising the date on each barrel of whisky is \$200, with an optional imprisonment for a year. It is said that a wholesale firm at Indianapolis and another at Logansport have been practicing this deception. Both have been discovered and the dealers at Indianapolis have settled with the government.

### COULDN'T STAND PROGRESS

St. Joseph County Farmers Cut Down Telephone Poles.

South Bend, Ind., June 11.—It appears that several farmers, a number of them renters, were guilty of cutting down 26 telephone poles in Warren township, their plea being that they "didn't want such new-fangled things along their road." Some of the poles were sawed into cordwood lengths and others were burned, while the wires were rattled. Two days and a night were devoted to the job. The Home Telephone company, including Fort Wayne capitalists, are moving in the affair. The guilty men realize they have gone too far, and are trying to compromise.

### Disappointed in Love.

Jasper, Ind., June 11.—Miss Mattie Mehne, a German girl, aged 20 years, who for the last five months has been living with Joe Gutzwiler's family of this place, committed suicide by taking carbolic acid. Miss Mehne was the daughter of John Mehne, one of the wealthy farmers of this county. She had been despondent for some time over a disappointment in a love affair. She left a note telling her parents not to grieve for her, as she was tired of life and had decided to end it.

### Met Them Coming.

Bluffton, Ind., June 11.—Someone circulated a report that Joe Marsh, a prominent farmer west of this city, had hung himself in his barn. Five hundred people drove out to see the sight, among them the coroner and two of Marsh's relatives. They met Marsh coming to town.

### Admits He Took Them.

Indianapolis, June 11.—Joseph Hall, the Indiana Medical College student who sold teachers' examination questions to J. H. Finkle at Marion, has confessed. He says that he received the questions from a county superintendent. The matter is being further investigated.

### Relatives Interfered.

Sullivan, Ind., June 11.—Ralph Johnson, a young man near Fairbanks, attempted suicide because of disappointment in love. He went to the barn, placed a log chain about his neck, and was about to leap, when some of his relatives saw him and interfered.

### An Epileptic Drowned.

Anderson, Ind., June 11.—Perry Timmons, 24 years old, was drowned in White river yesterday, one mile west of the city. He was subject to epilepsy, and while suffering from an attack fell in the river. His body was recovered an hour later.

### Jeffersonville's Centennial.

Jeffersonville, Ind., June 11.—Active preparations for celebrating the centennial of the founding of Jeffersonville have begun. The date selected is June 23, and the celebration will be held at Arctic Springs, east of the city.

### Coal Mine Destroyed.

Sullivan, Ind., June 11.—The White Ash coal mine north of Hymera, was totally destroyed by fire yesterday. The loss was \$25,000, partially covered by insurance. The origin of the fire is not known.

### Neely's Home-Coming.

Muncie, Ind., June 11.—News that C. F. W. Neely is to be set free caused great interest here. He is expected to return to Muncie in a few weeks. Friends plan a reception for him.

### For Better Order.

Alexandria, Ind., June 11.—Forty citizens at Summitville are organizing a law and order league. The movement, starting in Alexandria, is spreading over the gas belt.

### PANIC ON TRAIN

Passengers Could See the Train Which Caused Collision.

Macon, Ga., June 11.—The south-bound passenger train of the Southern Railway collided with a northbound freight train near Juliette, 23 miles north of Macon, yesterday afternoon. The engineer and fireman of the passenger train were instantly killed and nineteen of the passengers more or less severely injured.

The two trains met on a sharp curve while under full headway. Owing to the sharpness of the curve the passengers saw the approaching freight and a scene of panic developed. The shock of the collision was so great that seats were smashed into splinters and the glass in windows was broken. The engines and tenders were piled on each other.

### Dangers of the Rail.

Washington, June 11.—A bulletin just issued by the interstate commerce commission shows that during the three months ended Dec. 31 last, there were 1,481 railroad collisions, and 877 derailments in the United States, in which 274 persons were killed and 2,089 injured. Accidents of all kinds increase the total to 813 killed and 10,235 injured. The damage to cars, engines and roadway by these accidents amounted to \$2,075,091.

### Train In the Ditch.

St. Joseph, Mo., June 11.—A Chicago Great Western passenger train was wrecked at Dean, a small station about seven miles north of the city yesterday. Only one passenger was injured. The entire train of seven coaches left the track and rolled down a 12-foot embankment. Nearly every car was badly splintered.

### CONGRESSIONAL

What the Law Makers Are Doing Down in Washington.

Washington, June 11.—Another of the big supply bills of the government was disposed of by the senate yesterday, the naval bill, carrying more than \$78,000,000 being passed. It includes provisions

### RAILROAD RUMBLINGS.

Engineer John A. Gossett, of Albuquerque, New Mexico, arrived here last evening to spend some time with friends.

Quite a number of people from Jennings county came to the city today to shop.

Mrs. Howard Brown and little daughter, Giney, left this afternoon for Cincinnati and will spend two weeks there the guest of her aunt, Mrs. Mary Sedgwick.

There will be little damage from the Hessian fly to the wheat this year in Indiana. Last year there was considerable damage early in the year, and the year before much of the stand was destroyed by the mischievous pests. This year the state's statisticians have received but few reports of their presence. One township in Washington county reports the fly in the wheat and doing considerable damage, and a few scattered counties over the state have had fly in their wheat this year, but in general there has been no fly. The condition of the crops is favorable in the extreme. The rains have given the moisture for which plants were suffering, and with the exception of occasional damage from washing in the low lands, the corn, wheat and oats are all showing favorable conditions.

### BETHANY.

Lots of corn to be planted yet it rains enough to keep the ground too wet.

Freeman Trobridge and mother of Grassy Fork visited the latter's brother Wesley Hawn Friday.

Mr. Metcalf has gone to Redding-ton to haul logs.

Alvis Dewitt has returned from Illinois where he has been working on a farm.

Miss Lena Nelson is home from Indianapolis where she has been for a while.

Tuck McGill has his new barn raised.

There has been ten new buggies brought to this neighborhood in less than six months.

Mrs. Cornelius Rider and son went to Scottsburg Friday.

Mrs. George Hawn and Mrs. J. P. Franklin of Little York visited here Sunday.

There was a man through here last week contracting with the farmers to raise tomatoes for an Indianapolis factory.

## THE WATSON BILL

Gompers Says Legislation Favored By Indiana Republican Congressmen Should Be Enacted.

### WORKINGMAN NEEDS PROTECTION

From a Threatened Invasion of the Cheap Labor of Southern Europe and Asia—Republican Leadership Alive to the Welfare of the Wage Earner.

The Republican members of the Indiana delegation in congress have been conspicuously active during the present session in behalf of legislation advantageously affecting the interests of the American wage-earner. The strongest speech delivered in the senate in favor of the most stringent legislation against Chinese immigration was that of Senator Fairbanks. In the house Representative Cromer spoke forcibly in behalf of the most restrictive law proposed against "the yellow peril." In the house Representative Watson has been actively advocating a bill similar in some respects to that introduced by Senator Fairbanks two or three years ago, providing against the admission of illiterate immigrants to the ports of the United States.

President Gompers' Statement. In support of this bill Representative Watson introduced the other day a letter from President Gompers of the American Federation of Labor, which clearly sets forth the reasons why legislation of this character should be had. Mr. Gompers says:

"I have observed with much pleasure your activity in the cause of the regulation of immigration, and in particular your introduction of a bill providing that no adult immigrant shall be admitted to our country till he has acquired the first rudiments of education. It is for this reason that I now address you with regard to pending and prospective legislation. "The organized workers of the country feel that the existing immigration laws, while not without their value, are of trifling effect compared with the needs and the just demands of American labor. "The elaborate bill reported to the house by the committee on immigration is for the most part a simple codification of the existing laws, and modifies them only in some few details. I believe that the changes proposed are for the most part desirable. They are, however, comparatively unimportant. If it is worth while to take up the question of immigration at all, it is worth while to introduce a genuine and effective regulation. "The strength of this country is in the intelligence and prosperity of our working people. But both the intelligence and the prosperity of our working people are endangered by the present immigration. Cheap labor, ignorant labor, takes our jobs and cuts our wages. The fittest survive; that is, those that fit the conditions best. But it is the economically weak, not the economically strong, that fit the conditions of the labor market. They fit best because they can be got to work cheapest. Women and children drive out men, unless law or labor organization stops it. In just the same way the Chinaman and others drive out the American, the German, the Irishman. "The tariff keeps out cheap foreign goods. It is employers, not workingmen, that have goods to sell. Workingmen sell labor, and cheap labor is not kept out by the tariff. The protection that would directly help the workers is protection against the cheap labor itself. "Educational Test Favored. "The Nashville convention of the American Federation of Labor, by a vote of 1,858 to 352, pronounced in favor of an educational test for immigrants. Such a measure would check immigration in a moderate degree, and those who would be kept out by it are those whose competition in the labor market is most injurious to American workers. No other measure which would have any important effect of this kind is seriously proposed. The need of regulation may be less sharply felt at the present time, when there were a few years ago. But the flood of cheap labor is increasing, and its effect at the slightest stagnation in industry or in any crisis will be fearful to the American workmen. "A fall in wages or a relative fall of wages makes the workers unable to buy as large a share as before of the goods they produce. This hastens the time when overproduction or underconsumption will show itself. That means hard times; and when hard times come the mass of immigrants that prosperity attracted will be here to increase the burden of unemployment. "For these reasons the American Federation of Labor believes that the present opportunity ought not to be allowed to pass without the adoption of an effective measure for the protection of American labor. "I earnestly hope that you will be able to procure the embodiment of an illiteracy test for immigrants in the bill (H. R. 12199) which the house now has under consideration."

Prosperity Endangered.

"The strength of this country is in the intelligence and prosperity of our working people. But both the intelligence and the prosperity of our working people are endangered by the present immigration. Cheap labor, ignorant labor, takes our jobs and cuts our wages. The fittest survive; that is, those that fit the conditions best. But it is the economically weak, not the economically strong, that fit the conditions of the labor market. They fit best because they can be got to work cheapest. Women and children drive out men, unless law or labor organization stops it. The fad of handling snakes struck Washington a few years ago and a number of young hopefuls walked about with snakes in their pockets and in boxes, every place in fact, except in their boots. The fad has returned and a large number of cranks may be seen playing with the reptiles on the street, several going so far as to wrap the bodies of the creatures about their necks. There are several poisoned people and the result may be that someone will lose his life before the foolish habit is broken up.—Washington Herald.

### Freetown Will Celebrate.

The Fourth of July will be celebrated in grand style at Freetown, Indiana. A committee of substantial citizens has taken the matter in hand and no pains will be spared to make this the best celebration Freetown has ever had. The Seymour brass band has been secured to furnish the music, and good speakers will be present. Patriotic and devotional songs, speeches and recitations will make it a day of profit and entertainment to all.

### Pleasantly Entertained.

Mr. and Mrs. Thomas Phillips entertained very pleasantly last evening about thirty-five of their friends at their newly furnished home on Bruce street. Recitations and music were the feature of the evening. Dainty refreshments were served and all spent a pleasant evening. Mr. and Mrs. Phillips received quite a number of nice presents.

### Camp Meeting.

The Holiness camp meeting at Freetown will commence Friday, June 13, and continue ten days. The workers are J. T. Hatfield, the Hoosier evangelist, Mrs. Mattie Wines, of Whiteland, and Mr. and Mrs. A. L. Phillips, singing evangelists, of Grayville, and others. Everybody is invited.

Mrs. Julia Rosenfield received a message this morning announcing the death of her brother, Isaac Kline, at his home in Louisville, Tuesday evening, of heart trouble, aged about 67 years. Mrs. Rosenfield and daughter, Miss Stella, left this morning for Louisville to attend the funeral.

### Protection for Rural Delivery Mail Boxes.

The following paragraph is taken from the Postoffice Appropriation bill: "Whoever shall hereafter willfully or maliciously injure, tear down, or destroy any letter box or other receptacle established by order of the Postmaster-General or approved or designated by him for the receipt or delivery of mail matter on any rural free-delivery route, or shall break open the same, or willfully or maliciously injure, deface, or destroy any mail matter deposited therein, or shall willfully take or steal such matter from or out of such letter box or other receptacle, or shall willfully aid or assist in any of the afore mentioned offenses, shall for every such offense be punished by a fine of not more than one thousand dollars, or by imprisonment for not more than three years." This paragraph became effective when the President signed the bill, and it is now in full force.

### The Business School.

On Thursday of next week, June 19, the Schwartz & Dryden business and shorthand school will open its sessions in the Laurel street school building. This will offer a rare opportunity to the young people of Seymour and Jackson county to secure a thorough training in business methods or in shorthand. Professors Schwartz and Dryden are teachers of excellent ability and as they will do the teaching themselves, it affords a guarantee that it will be well done. The prospect for attendance is excellent. There are several here who have been under their instruction and these all testify to the thoroughness with which their instruction is given. If you have any notion of taking such a course it will pay you to investigate at once.

### Medals for Soldiers.

All of the Indiana soldiers of the Spanish American and Philippine wars are interested in a resolution which Secretary Root is asking congress to pass. It provides that there shall be given to every soldier of those campaigns a silver service medal, showing the government's appreciation of his services. This plan of distributing service medals is borrowed from a custom in vogue in some of the European countries.

### Base Ball.

Manager Ed Jennings has arranged with the Lawrenceburg ball team to play the opening game with the Seymour Reds next Sunday afternoon at the ball park.

### Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

### MISS ROSE OWENS,

No. 720 Seventeenth St., WASHINGTON, D. C.

"If every suffering woman has the same experience with Wine of Cardui that I had, your medicine will be most popular. About a year ago I began to have a worn out tired feeling with lassitude, pains in the back and head which kept increasing every month. I felt that I needed something, but to get the right medicine was the trouble. I finally decided on your Wine of Cardui and it needed to take three bottles when I was fully recovered."

If you are a suffering woman we would say to you that Wine of Cardui seldom fails to completely cure any case of female ills. We say emphatically, it never fails to benefit. Every day hundreds of sufferers are writing to our Ladies' Advisory Department. The letters are opened by persons competent to give advice. Mrs. Jones was cured by following the advice which was freely given her by the Ladies' Advisory Department. Miss Owens was cured without advice by just buying a \$1.00 bottle of Wine of Cardui from her druggist and taking this great medicine in the privacy of her home. No doctor's examination, treatment or advice is necessary. You have read what these two cured women have written. Is this not enough to lead you to determine to be rid of suffering?

WHEN Miss Rose Owens, who has a responsible position in the Government service at Washington, D. C., decided to try Wine of Cardui, she made a wise choice. Over a million women have been relieved of female weakness by this same Wine of Cardui. It is not a strong medicine but may be taken every day in the year by any woman with benefit. It does not force results, but corrects derangement of the menstrual organs. It strengthens the nervous system, gives tone to the bodily functions, acts directly on the genital organs, and is the finest tonic for women known to the science of medicine.

**WINE OF CARDUI** A million suffering women have found relief in Wine of Cardui.

### Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. You can get this reliable remedy at The Peter Drug Co. Regular size 75 cts. Green's Special Almanac. 1

## MILWAUKEE PEOPLE

Could Hardly Believe It. A Prominent Woman Saved From Death by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suppose a large number of people who read of my remarkable cure will hardly believe it; had I not experienced it myself, I know that I should not."

MRS. SADIE E. KOCH.

"I suffered for months with troubles peculiar to women which gradually broke down my health and my very life. I was nearly insane with pain at times, and no human skill I consulted in Milwaukee could bring me relief."

"My attention was called to Lydia E. Pinkham's Vegetable Compound; the first bottle brought relief, and the second bottle an absolute cure. I could not believe it myself, and felt sure it was only temporary, but blessed fact, I have now been well for a year, enjoy the best of health, and cannot in words express my gratitude. Sincerely yours, SADIE E. KOCH, 124 10th St., Milwaukee, Wis."—\$5000

Such unquestionable testimony proves the power of Lydia E. Pinkham's Vegetable Compound over diseases of women.

Women should remember that they are privileged to consult Mrs. Pinkham, at Lynn, Mass., about their illness, entirely free.

### PLAN NOW FOR COLORADO.

THE BURLINGTON'S EXTENSIVE SCHEME OF SUMMER TOURS.

The Burlington Route makes the most attractive excursion routes to Colorado Resorts that have ever been made. For long periods of the summer we make such remarkably low first class round trip rates to Denver, Colorado Springs and Manitou, as \$21.00 from St. Louis, \$15.00 from Kansas City, \$25.00 from Chicago, good all summer; at other periods, only one fare plus \$2.00 round trip.

### CHEAP TO PACIFIC COAST, TOO

May 7th to June 8th, August 2d to 8th. Round trip good 60 days, variable routes; from St. Louis \$47.50, from Chicago \$50.00, Missouri River \$45.00; all lower than the one-way rate; only \$11.00 more between Frisco and Portland; first class, good in chair cars (seats free), standard sleepers or Through Tourist Sleeper Excursions. Chief Coast route, the Burlington to Denver, through Scenic Colorado, Salt Lake.

### COOL MINNESOTA.

10,000 lakes; scores of the coolest and best summer localities in the country; frequent periods of low summer rates.

Apply to nearest ticket agent, or write us of your proposed trip, whether to Colorado, Pacific Coast, Yellowstone Park, Minnesota, and let us advise you least cost and assist you.

Send for our handsome Colorado or California 1902 publications free.

### WINONA LAKE, Indiana's Famous Summer Resort.

Winona Lake, Ind., the pretty summer resort on the Pennsylvania Lines in Northern Indiana affords rest, recreation, entertainment, and delightful surroundings for persons desiring to enjoy vacation outings. This resort is the site of Winona Assembly and Summer School, and is annually visited by many persons who are strengthened in mind by the excellent facilities for educational work, and invigorated in body by the health-giving influence for which Winona Lake is famous.

On May 15th, the Opening Day of the Season of 1902, excursion tickets to Winona Lake will be on sale via Pennsylvania Lines. They may be obtained from May 15th to September 15th, inclusive.

For particular information on the subject of rates and time of trains, apply to Ticket Agents of the Pennsylvania Lines, or to F. V. DICKER, Chief Assistant General Passenger Agent, Pittsburg, Pa. Information about attractions at Winona Lake, entertainments, the Summer School sessions, etc., will be furnished in reply to inquiries addressed to M. C. S. DICKER, Secretary, Winona Lake Ind.
